ABOUT ME

I am a software development enthusiast with over five years of experience building diverse applications, including web, mobile, and desktop solutions.

My current professional tech stack revolves around C# .NET and JavaScript/jQuery. Additionally, I have solid experience with frontend technologies, such as HTML, CSS, and bootstrap. That said, I'm always open to learning and working with other languages and tools — this is just where I'm currently most productive. Currently, I'm focused on improving my expertise in React and TypeScript to expand my full-stack capabilities while maintaining strong backend proficiency with C# .NET.

On a personal level, I am committed to continuous learning, always eager to explore new technologies and expand my skill set.

CERTIFICATIONS

REST APIs in .NET	DOMTRAIN (2025)
Integration testing in ASP.NET CORE	DOMTRAIN (2024)
React 18 & TypeScript	CODE WITH MOSH (2024)
TypeScript	CODE WITH MOSH (2024)
Javascript Unit Testing	CODE WITH MOSH (2024)

WORK EXPERIENCE

Innux Technologies Fullstack developer	2020 - PRESENT
--	----------------

.NET Core:

Collaborate on the development of various commercial services, including ticketing, access control, and clocking systems.

Xamarin/.NET MAUI:

Developed and currently maintaining several apps targeting the Android platform.

.NET MVC:

Participate in the development and maintenance of a platform for asset management, data reporting, access control, and HR functions. Currently implementing new features to improve system efficiency and enhance user experience.

JavaScript/jQuery, HTML, CSS & Bootstrap:

Integrated with .NET MVC for front-end development, enhancing UI/UX functionality.

WORK EXPERIENCE

ASP.NET Web Forms:

Assisted in maintaining legacy applications to ensure stability and functionality.

SQL, LINQ, ADO.NET:

Utilised for data management and manipulation in most of the projects.

Desktop Applications:

Maintained legacy desktop applications and developed new ones, including console and Windows-based applications.

Tools & Concepts:

Basic understanding and exposure to Domain-Driven Design, Test-Driven Design, Docker, RabbitMQ

Frameworks & Technologies:

Hands-on experience with .NET 6.0 , 7.0 and 8.0

Xunit and Vitest as testing libraries.

React and Typescript

LANGUAGES & TOOLS

EDUCATION

Code Developer

2019

Centro Formação Galileu

Certification: Physiotherapeutic Massage and relaxation

2016

SIMAC

SKILLS

Backend Development, Teamwork, Time Management, Frontend Development, Effective Communication, Critical Thinking, Mobile Development.

LANGUAGES

Portuguese (Native), English (Fluent).

HOBBIES

Sports, Gym, Travel Tracking.
