ABOUT ME

I am a software development enthusiast with a deep passion for all things related.
With over five years of experience, I've successfully developed a diverse range of applications, including web, mobile, and desktop solutions.

Currently, my professional tech stack is centered around C# .NET and Javascript. In addition, I have solid experience with frontend technologies, including HTML, CSS, and bootstrap.

On a personal level, I am committed to continuously expanding my knowledge of new languages and tools, always eager to learn new things.

EXPERIENCE

Innux Technologies
Fev '20 - to present day

- **.NET Core:**
  Collaborate on the development of various commercial services, including ticketing, access control, and clocking systems.
- **Xamarin/.NET MAUI:**
  Developed and currently maintaining several apps targeting the Android platform.
- **.NET MVC:**
  Participate in the development and maintenance of a platform for asset management, data reporting, access control, and HR functions. Currently implementing new features to improve system efficiency and enhance user experience.
- **JavaScript/jQuery, HTML & CSS:**
  Integrated with .NET MVC for front-end development.
- **ASP.NET Web Forms:**
  Assist in maintaining legacy applications to ensure stability and functionality.
- **SQL, LINQ, ADO.NET, EF Core:**
  Utilised for data management and manipulation in most of the projects.
- **Desktop Applications:**
  Maintained legacy desktop applications and developed new ones, including console and Windows-based applications.
- **Tools & Concepts:**
  Basic understanding and exposure to Domain-Driven Design, Docker, RabbitMQ, and Redis.
- **Frameworks:**
  Hands-on experience with .NET 6.0 , .NET 7.0, React and Typescript.
